**Subject: Children's Land Programme**

Dear Mr Leguia,

The *Children's Land Programme* initiated by the Association for Children and their Environment (ANIA) is fully in line with the objectives and priorities set out by the *United Nations Decade of Education for Sustainable Development (DESD, 2005-2014)*, co-ordinated by UNESCO. We have decided to recognize it as an official activity within the United Nations Decade of Education for Sustainable Development. This is a quite timely initiative and helps in promoting a new vision of a more just and sustainable world. It offers a very creative way to get key sustainability messages to children and young adults, and to exchange ideas around sustainability issues.

Based on the stated objectives of the *Children's Land Programme*, UNESCO is confident that this initiative will be a very valuable contribution to the second half of the UN Decade for Education for Sustainable Development. Please find attached a zip file containing the DESD logo in various formats for use on the materials developed by ANIA for the *Children's Land Programme*, and for its various related events. We will widely disseminate information about the *Children's Land Programme* to various ESD stakeholders in different countries.

Wishing you much success in continuing this initiative, and looking forward to hearing of its developments, sincerely,

Bernard Combes  
Information Officer  
Secretariat of the UN Decade of Education for Sustainable Development
